

## Clark Forklift Parts

Clark Forklift Parts - Performing worldwide, there are now 350,000 Clark forklifts and lift vehicles in operation, with more than 250,000 of those in commission in North America. Clark has five main lines of lift trucks across the world, making it one of the most expansive corporations in the industry. Heavy duty vehicles ranging from 1,500lb to 18,000lb capacities, dual fuel, gasoline, LPG, hand powered lift trucks, narrow-aisle stackers and electric riders are a few of their specialties.

Clark Totalift, covers more than 120,000 specialized parts fabricated for 20 distinctive brands of lift trucks and automated equipment. Your regional Clark Supplier is your total source for availability of all your components requirements provided by Clark Totalift.

Clark's phenomenal Parts Distribution Stores are conveniently located in Louisville, Kentucky, which serves both their customers and dealers in North America, and Changwon, South Korea, which handles their Asian dealers and customers. For over 90 years, Clark has exceeded industry standards, being one of the most actively advancing companies. Driven to offer the highest level of value and service to our customers, Clark remains on the leading edge when it comes to enhancing efficiency and benefiting performance.

Clark Totalift has a really amazing intercontinental support network. With over 550 locations globally, dealer representation in over 80 nations and 230 locations in North America, their high level of dedication to their clients predominates the materials handling market.

By pioneering the operator restraint system safety feature, Clark proudly remains a leader of innovation in the industrial equipment and automated forklift industry. This exceptional dedication to safety is currently a standard feature on every lift truck.

Clark's relentless effort to boast the No. 1 Quality system in the industry is proudly demonstrated by ISO 9001 - Clark, is the first forklift manufacturer across the world to be certified with the internationally accepted quality standard ISO 9001 for each and every one of their production plants. Additionally, the ISO 14001 Environmental Management System certificate was awarded to Clark's Korean facility in 2001. This paramount achievement allows Clark to be prepared for any environmental limitations, thus placing them in a dominant market position.

Clark has preferred the extremely economical and advantageous system of "Lean Manufacturing" for its assembly facilities and use of resources. This system was developed to acknowledge the most efficient approaches of production facility stewardship and ensuring maximum efficiency. Clark has concluded this transition of its Korean facility. COPS which is Clark Optimized Production System, similarly focuses on quality of product and services and production efficiencies.

Clark's product engineers and suppliers join together to perfect the effectiveness and excellence of their products while minimizing costs. The contemporary value engineering program combines progressive product growth and offers superior client support and service within the industry.
