

Barrel Clamp

Barrel Clamps - Known as "Barrel Clamp", this particular hydraulic attachment is actually used on lift trucks in order to clutch objects which you would like to transport utilizing the forklift. Normally, they are used in order to paper rolls, barrels, and handle kegs, along with some barrel clamp designs having the ability to revolve the cargo. Like for instance, the revolving function permits a lift truck operator to be able to slot in a vertically stored paper into the horizontal intake of a printing press.
