

## Meritor Parts

Meritor Parts - Meritor is a premier international supplier that is proudly established on a one hundred year tradition of service and quality. They focus on various integrated systems, modules and parts to original equipment makers and the aftermarket for the industrial and transportation trades.

Meritor values the requirements of all their customers to ensure their success while priding itself in the company's unique energy and feels this output of energy to be their aggressive advantage in their international operations. Meritor starts with a culture which values diversity of people and their broad thought processes. Operating in 19 nations and hiring over eleven thousand two hundred individuals, Meritor encourages innovation and collaboration amongst a team of knowledgeable professionals.

Meritor strongly believes in only employing future focused workers. These top-caliber people could quickly get used to to changing environments and freely exhibit the level of performance and commitment considered necessary to get results for the competitive market environment. The company empowers their teams to make sound business decisions in order to improve the overall success of the company. In return, Meritor offers their staff various chances for personal and professional growth.

Their Advanced Engineering team is at the forefront of parts and system engineering which consist of axles, drivelines, braking and suspension systems used for heavy duty and medium trucks, off-highway vehicles, buses, military vehicles and trailers. The Meritor Advanced Engineering team is developing. They launched a new technical center in Bangalore, India in September 2009 to be able to lead their advanced product development initiatives that represent the whole Asia Pacific region. This particular team is likewise responsible for supporting the needs of all their global engineering workers.

Meritor's customer focused and dynamic Quality team is dedicated to ensuring optimum processing at their production plants and aftermarket distribution facilities which are situated all around the globe in 19 nations and in 5 different continents.

The supplier development network is particularly situated to support new business growth. Regional teams are supported by global centralized specialties, initiatives and quality systems in Materials Engineering and Six Sigma. Meritor's growing Six Sigma program encourages a fact-based, data-driven method to decision making within each and every aspect of the trade. The DFSS or Design for Six Sigma ensures product reliability in each and every region. The team is also comprised of transactional Green Belts who use Six Sigma tools to business methods and apply lean techniques.
